

MMC NEWS

NEWSLETTER OF MIRAJ MEDICAL CENTRE

FROM INTERNAL CIRCULATION ONLY

JANUARY — APRIL 2011

From Director's Desk

Dear Friends,

Greetings from Wanless Hospital, Miraj Medical Centre, Miraj. In the name of almighty Lord and saviour Jesus Christ. I take this privilege to let you know the MMC News. MMC stands for its healing, teaching and preaching ministry, and has made a significant progress in the field of education and we are determined to establish Miraj Medical Centre Society's Christian Medical College and Research Centre, Miraj. It is a dream of everybody in near completion and if everything goes well God willing we may start college as soon as possible subject to inspection and permission by MCI, New Delhi. Let us prepare for this.

"Vision is a key to achievement. All achievement, all goals and all programmes everything God wants you to do, must begin with the arrow point you are on the diagram. It must begin with vision, without vision people dwell carelessly". In our day to day life there is an intense need of clear vision, which is transparent, can be communicated and understand God's purpose behind it. Vision is divinely initiated, vision will be tested, vision definitely has limits, vision must be incubated and through our actions today's vision gives tomorrow's safety and security.

Friends we at MMC have a vision to make this institute, an institute of excellence and self-sufficiency. An institute of educational centre in all the field and institute gives compassionate, committed, concessional care to needy and poor, in the true spirit of our Almighty.

Let us look at our Almighty and with His blessings take this institute to a greater height. This is our vision, task and responsibility. MMC brings Easter greetings to all our friends and readers.

With best wishes,

Yours in His service

Dr. Deepak M. Kamle, MS, FRSH, FCAMS

DIRECTOR
